Version 1
July 2021

All prices listed in this price list are in AUD and exclude GST.

Siniat Metal is a comprehensive range of metal framing components for use with wall and ceiling linings. All metal components are corrosion resistant for Australian conditions and Standards. Studs along with many other components, are made from 'Next Generation' Zincalume AM150 coated G300 steel for extra strength and corrosion resistance.

product & safety data sheet

carbon neutral opt-in program

Siniat is focussed on reducing our carbon footprint. As part of this commitment, Siniat offers an opt-in carbon offset program certified against the Australian Government's National Carbon Offset Standard (NCOS). Customers may choose to offset the carbon emissions associated with manufacturing the metal products they are purchasing.

The opt-in program is available for a range of metal products manufactured in Beenleigh Plant.

storage and handling

— Products are supplied in varied pack and sub-pack quantities. Product must be secured to prevent movement during storage and transport.

— Store all steel profiles and associated accessories including trims, beads and clips in a dry area free from excess dirt, oil and airborne contaminants such as acid and salt spray.

health and safety

— Products manufactured by Siniat metal are produced from zinc/aluminium/magnesium or galvanised (zinc) coated steel coil which is classified as a non-hazardous material.

— Wear appropriate gloves to avoid cuts when handling. Other PPE as appropriate should be used based on the task (such as goggles when cutting sections). Any PPE used is to be compliant with the relevant Australian Standard.

— Persons with sensitive skin conditions should seek medical advice before prolonged handling of metal products.

— After handling steel, hands should be washed before eating and for personal hygiene.

Roll formed metal products manufactured and distributed from the Beenleigh plant are produced under a management system certified as complying to ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018.

siniat metal framing systems

product & safety data sheet

key benefits

- **wide range of metal wall and ceiling components in various profiles and thicknesses to meet project requirements**
- **industry leading corrosion resistance engineered to handle the harsh Australian climate**
- **part of the complete system from Siniat including plasterboard, insulation and compounds**

Siniat metal framing systems

Siniat designs and manufactures a comprehensive range of metal framing components for wall and ceiling systems.

Manufactured in Beenleigh Plant, the components are designed in accordance with relevant Australian Standards and the requirements of the Building Code of Australia.

Siniat Metal Framing Systems include steel stud wall systems, furring channel and batten wall systems, top hat and façade systems, jamb stud, acoustic studs, concealed and exposed ceiling systems together with a range of access panels and plaster finishing accessories.

Steel coils in Siniat products comply with *AS 1397: 2011 Continuous hotdip metallic coated steel sheet and strip - Coatings of zinc and zinc alloyed with aluminium and magnesium. The steel coils also comply with AS/NZS 1365:1996 Tolerances for flat-rolled steel products.*

Siniat Metal Framing Systems are non-combustible, versatile and durable products suitable for use in internal and external wall and ceiling applications inside the building envelope.

Siniat system components are available in multiple widths, lengths and gauges - from stud and track, deflection head track, nogging track through to the innovative flexible track.

design service

Siniat provides a free design service for metal products backed up by a Siniat Warranty.

The detailed engineering designs for walls, ceilings and window or door openings can take into consideration specific project needs, as well as designing to meet the building code requirements.

product	steel grade	corrosion coating
stud, track, nogging track, top cross rail and top hats	G300	Zincalume® `Next Generation' AM125 and AM150
battens and furring channels	G550	
plaster trims	G300	
jamb	G450	Galvanized coating - Z350

delivery & transport policy

delivery

Delivery charges apply for Metropolitan sales orders conducted by Siniat or its designated agents. Deliveries outside normal delivery times are available and will incur an additional charge. Please refer to your local Siniat Customer Service Centre for standard delivery times and charges and for delivery service to other designated delivery areas.

To ensure deliveries are packed correctly, notification of the unloading method must be given to Siniat at time of order placement (i.e. Forklift, site crane, vehicle loading crane). Any deliveries where a mechanical aid cannot be used may incur additional charges.

Any loads that are to be pre-slung must be specified at time of order placement.

Any special transport requirements must be stipulated at the time of order placement and no later than 48 hours prior to the requested delivery date/time (i.e. Gated trucks). Additional charges may apply.

Any special packaging requests will incur an additional charge and lead times may apply. Multiple sales orders that are being delivered to the same delivery address that are required to be packed separately, will be considered a special packaging request.

Siniat will endeavour to meet all delivery times. However, Siniat shall not be held liable for any delay in deliveries which are caused by circumstances beyond the control of Siniat.

Siniat shall not be responsible for any damages or costs directly or indirectly incurred as a result there of.

If an order is unable to be delivered to a site as a result of an action beyond the control of Siniat, and the order is returned to the Siniat site, a delivery fee will be charged.

Product delivered by Siniat or its designated agent will be unloaded as close as practical to a requested location. Due to varying site restrictions, drivers are only able to place product not more than 7 metres from the delivery vehicle.

It shall be the responsibility of the client to ensure that there is clear passage into and out from the requested delivery site.

demurrage

Should a delivery be held up or delayed for greater than one hour, Siniat reserves the right to charge a demurrage fee for waiting time. Waiting time will be calculated in 30 minute increments.

damaged and shortages of product

The customer must notify Siniat of any damage or shortages of product within 48 hours of delivery. This notification must also be followed up in writing for any further action to be taken. Once product has been delivered to the buyer or requested site, product will then be the responsibility of the buyer.

product returns

Should a situation arise where the customer is seeking to return standard product, the customer must first approach the Siniat Customer Service Centre for approval. Only standard, undamaged product that is deemed fit for resale by Siniat will be considered for return and these will incur a re-stocking fee.

specials and made to order products (mto's)

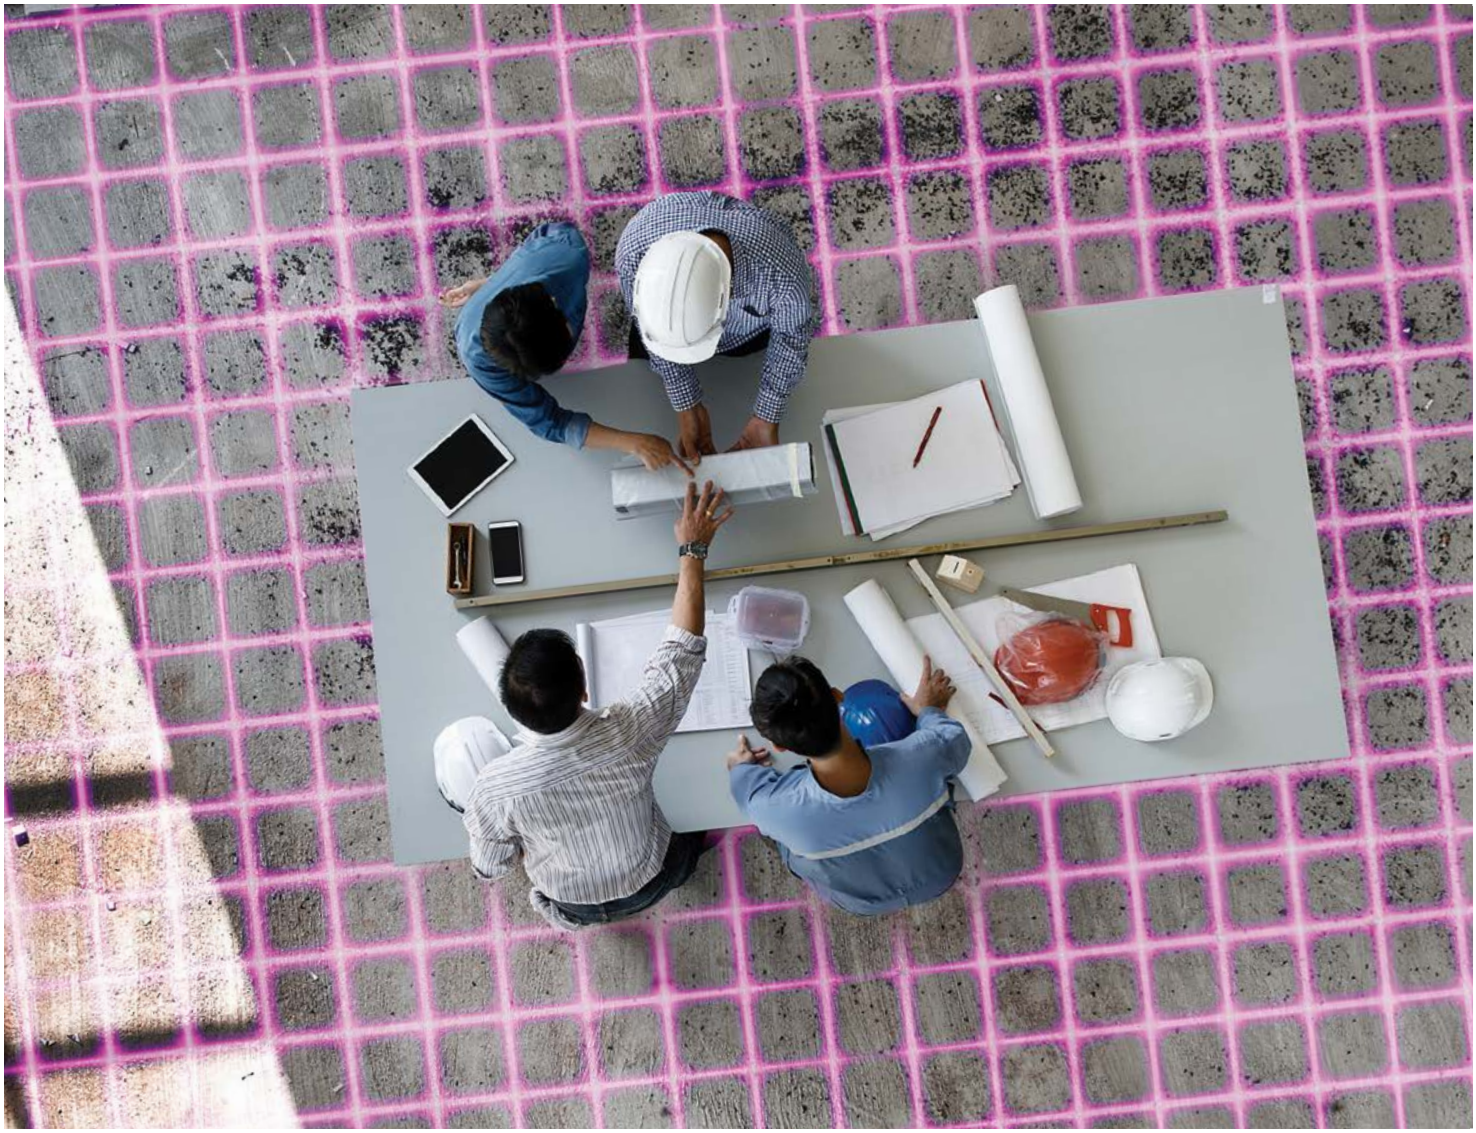
All specials and MTO's (made to order) will be scheduled to be manufactured after a purchase order has been placed by the customer with the Siniat Customer Service Centre.

Minimum order quantities and lead times for specials and MTO's vary depending on the type of product. For details on minimum order quantities and lead times, please contact your local Siniat Customer Service Centre.

Siniat is able to hold special and MTO stock for up to 7 days. All orders for specials and MTO's are required to be picked up or delivered within 7 days from the date of manufacture, at which point any remaining stock will be invoiced and delivered.

Specials and MTO's cannot be returned for credit.

Siniat **warranty**
the safety net for ultimate **peace of mind**.



Many manufacturers offer 10 year product warranties, but the Siniat Warranty takes this to a whole new level.

Not only do we guarantee our Siniat products, but our advanced system engineering and rigorous testing regimes give us the confidence to offer you a warranty that can cover the whole wall and ceiling systems.

So when you install Siniat products as a complete system in accordance to our recommendations, you have the ultimate peace of mind knowing that you are covered by the Siniat Warranty.

Let's build better, together.
