

# GLIDER SERIES

## STRAIGHT GLAZERS

# Glide Through Internals

SGG-95 | SGG-80 | SGG-60

The Glider Series Straight Glazers are made from a more rigid assembly of stainless steel components with an acetal ball socket block and **WHEELS!**

Using the same wheels as the Nail Spotters, these glazers GLIDE along internal 90 DEG corners providing an even coverage while feathering the edges.

The Glider Glazers have a stiffer body better suited to thicker compound mixes.

Similar to the already popular Straight Glazers, the Glider Series Glazers are designed to be used with either the Tapepro Corner Finisher Handle (CFH-1200) or Tapepro Corner Finisher Extendable Handle (CF-XH)

Use a two-step process: apply compound with the Compound Applicator Tube (CA-T) or Corner Box (CA-H) using the Angle Head (AH-38) then glaze with the Glider Glazer.

Code	Barcode	Description
SGG-60	9315778002424	Glazer Glider Series 60mm
SGG-80	9315778002431	Glazer Glider Series 80mm
SGG-95	9315778002448	Glazer Glider Series 95mm
