PRODUCT INFORMATION

Benefits

> Economical ceiling solution
> Quick and easy to install and demount
> Easy to cut to size on site
> Group 1 fire hazard

Paper faced plasterboard ceiling panel offering an economical ceiling solution.

SpanGrid is a paper faced ceiling panel that requires no further finishing and thereby offers a quick and economical ceiling solution that is ideal for offices, schools and shopping centres. Spangrid is a demountable lay-in tile that is quick and easy to install. SpanGrid ceiling panels complement the existing range of paper, vinyl and plain face ceiling panels offered by Knauf Plasterboard.
